🌐 [Portfolio](#)

Passionate Web Developer with a background in Mass Communication and solid experience in building responsive, user-focused websites. Skilled in modern web technologies and frameworks, with a commitment to clean design. Known for creativity, clear communication, problem-solving, and a commitment to continuous learning.

WORK EXPERIENCE

Web Developer

Verbm Networks limited

January 2024 – Present

Enugu, Nigeria

- Design and develop responsive, user-focused web applications using modern technologies and frameworks.
- Collaborate with teams to build and maintain ICT-based solutions and websites.
- Manage databases and ensure optimal web performance.
- Deploy and redeploy websites and applications, ensuring functionality, uptime, and seamless updates.
- Train and mentor interns in web development, covering HTML, CSS, JavaScript, and project-based learning.
- Support ICT training programs and contribute to skill development initiatives.

Web Developer Intern

Verbm Networks limited

July 2022 - Dec 2023

Enugu, Nigeria

- Designed and implemented web pages using HTML, CSS, JavaScript, and modern development practices.
- Applied responsive design techniques to ensure compatibility across devices and optimal user experience.
- Participated in debugging, testing, and performance optimization of web applications.
- Collaborated with design and content teams to maintain consistency and improve overall usability.

PROJECTS

E-Commerce Web Application

Tech Stack: Next.js, Tailwind CSS, TypeScript, Prisma, MongoDB

- Developed a full-featured e-commerce platform with product listings, shopping cart, and secure checkout.
- Implemented **user authentication** and **role-based access control** to differentiate admin and customer functionalities.

Real Estate Management Platform

Tech Stack: Next.js, Tailwind CSS, TypeScript, MongoDB

- Built a responsive real estate web application that allows users to browse, list, and manage properties efficiently.
- Integrated **user authentication**, **dashboard management**, and **role-based authorization** for agents and administrators.

Hospital Management Dashboard

Tech Stack: Next.js, Tailwind CSS, TypeScript, PostgreSQL, Shadcn/UI

- Developed a simplified hospital management dashboard to manage doctors and patients efficiently.
- Implemented authentication, CRUD functionalities, and a clean, responsive user interface for administrative operations.
